PLEASE NOTE: the IRR-based performance comparisons below are theoretical and pre-commission. Moreover, they are un-audited. The DK Analytics model portfolio is not intended to offer adequate diversification nor can it be construed to be investment advice. Readers are strongly encouraged to seek registered investment advisors for encompassing and continuing portfolio advice/portfolio management that is tailored to unique individual investor needs, profiles, and risk tolerances while providing for requisite diversification. Past performance is not a guarantee of future results. Nothing in this model performance worksheet should be understood to be a solicitation to buy or sell securities. Information provided has been prepared from sources deemed to be reliable, but they are not guaranteed. Liquid securities can fall in value. Capital losses associated with the DK Analytics model portfolio positions may occur. Given the relatively low model portfolio diversification, model portfolio results will fluctuate significantly in both absolute and relative-to-indices terms.
